Who We Are

The Strength of a Firm... The Presence of a Seasoned Lawyer

Since 2003, MAP Lawyers has combined courtroom and arbitral experience with the depth of university professors and legal scholars: a law firm registered in Egypt and the United Kingdom, practicing in Saudi Arabia since 2007, giving clients what no sole practitioner can — a full team, a fortified opinion, and institutional accountability.

Where your need begins... our responsibility begins

Facing a major case or a complex dispute

A litigation and arbitration team led by practitioners and procedure professors, building your strategy from the first document to judgment and enforcement.

3,000+ cases · 97 arbitrations p. 13

A business owner protecting the company

Annual advisory retainers, watertight contracts and risk management ahead of every decision — so your business grows with confidence.

6,000+ contracts p. 12

A lawyer seeking professional development

An academy that takes you from study to practice, under academic supervision with hands-on experience in Egypt and Saudi Arabia.

40 hours · 6 tracks p. 16

A company seeking a lasting legal partner

An annual advisory retainer that supports your decisions and protects your business, followed by training tailored to your legal department and contracts team.

Retainer · Training p. 12

Three pillars... that make the difference

- 01 Expertise that understands business**
20+ years in the courts, backed by university professors who have taught judges and lawyers.
- 02 Cross-border presence**
Registered with the Egyptian Bar and established in the UK, with clients in **18** countries and international expertise brought to them.
- 03 Integrated services**
From advice and contract to judgment and enforcement, with annual retainers and scholarship documented in published works on procedure and arbitration.

Why retain a firm... rather than a sole practitioner?

- 01 A team that never stops**
Your file never stalls because one lawyer travels or is busy; a whole team stands behind it.
- 02 Two sets of eyes**
Every brief is reviewed by a seasoned practitioner and a law professor before filing.
- 03 Institutional accountability**
Documented commitment, guarded confidentiality and continuity that never depends on one person.
- 04 Expertise across three countries**
Litigation, arbitration, contracts and corporate work in Egypt, Saudi Arabia and the UK.

Your lawyer handles your file personally — you know them by name... and a whole firm stands behind them.

The Partners

Integrated Leadership... One Institutional Vision

LEADERSHIP AS ONE

Mhanny Yousef, Attorney

Founder & CEO

Founder of MAP Lawyers and its CEO, the architect of its institutional vision, with more than twenty years in litigation and arbitration across Egypt and Saudi Arabia.

He leads complex commercial, financial and construction disputes from procedural strategy to judgment and enforcement, with an advocate's skill and a risk manager's eye.

He drafts cross-border contracts and leads training programs that bring courtroom and arbitral experience to lawyers and legal departments.

Prof. Dr. Dweeb Hussein Saber

Partner — Managing MAP Lawyers Cairo

Professor of Public Law and Dean of the Faculty of Law, Assiut University; former Dean of the Faculty of Law, South Valley University; former Head of the Public Law Department and Vice-Dean.

Legal expert to the Omani Shura Council (2013–2018), and Legal Advisor to the President of Assiut University.

He leads MAP Lawyers in Cairo with deep expertise in administrative law, governance, compliance, contracts and public projects.

Prof. Dr. Ali Ramadan Ali Barakat

Partner — Head of Arbitration & Training

Professor and Head of Civil & Commercial Procedure, Beni Suef Faculty of Law; former Dean of the Fayoum Faculty of Law, with a career of nearly four decades.

Former professor at King Saud University in the Saudi judicial system, procedure, evidence and enforcement, and litigation trainer with the Ministry of Justice.

He leads the arbitration and training practice at MAP Lawyers, with expertise in complex disputes, enforcement and procedural strategy.

Mohammed bin Musaibih, Attorney

Partner — Managing MAP Lawyers Riyadh

Saudi attorney and legal counsel, a King Saud University law graduate licensed by the Ministry of Justice, with more than ten years of experience.

He specializes in litigation before Saudi judicial and administrative bodies — from jurisdiction and filing to briefs and enforcement of judgments.

He leads MAP Lawyers' work in the Kingdom from Riyadh, overseeing client cases and advice on contracts and commercial and arbitral disputes.

**That the law
remain an
honor upheld...
never a trade
for sale.**

This is our pledge to our
clients — and our legacy to
those who follow.

- ◆ Knowledge respected
- ◆ Word kept
- ◆ Confidence guarded
- ◆ Rights never bargained

A Word from the Partners

Advocacy is a mission before it is a profession... and a trust before it is a fee

We did not come together at MAP Lawyers to add one more name to the list of law firms, but to restore the profession to its original image. Among us are those who taught law in university halls, those who practiced it in courtrooms and arbitral tribunals, and those who ran major legal departments — so our counsel is the sum of knowledge, experience and patience: it grasps the finest details and reads between the lines.

◆ *To business leaders and company owners*

You are not looking for a lawyer to write a reply, but for a partner who sees the danger before your opponent does, and who guards your confidences as carefully as your rights. Trust is not asked for — it is earned; that is why more than 970 clients in eighteen countries have entrusted us with their businesses and decisions. Our measure is impact: the weight of what we have carried, what we have won for our clients, and our loyalty to our history and our mission.

◆ *To our trainees*

A lawyer's worth is not measured by the number of cases, but by clean hands, an honest word and deep knowledge. Be trustworthy before you are brilliant, learn before you plead, and know that trust is capital that can never be replaced.

◆ *To our fellow lawyers*

We extend our hands to you as partners in the mission, to raise together the banner of clean advocacy: advocacy that champions the right and never trades in it, protects the client and never exploits them, and respects the judiciary and never circumvents it — so that you become an example to follow and a legacy that endures.

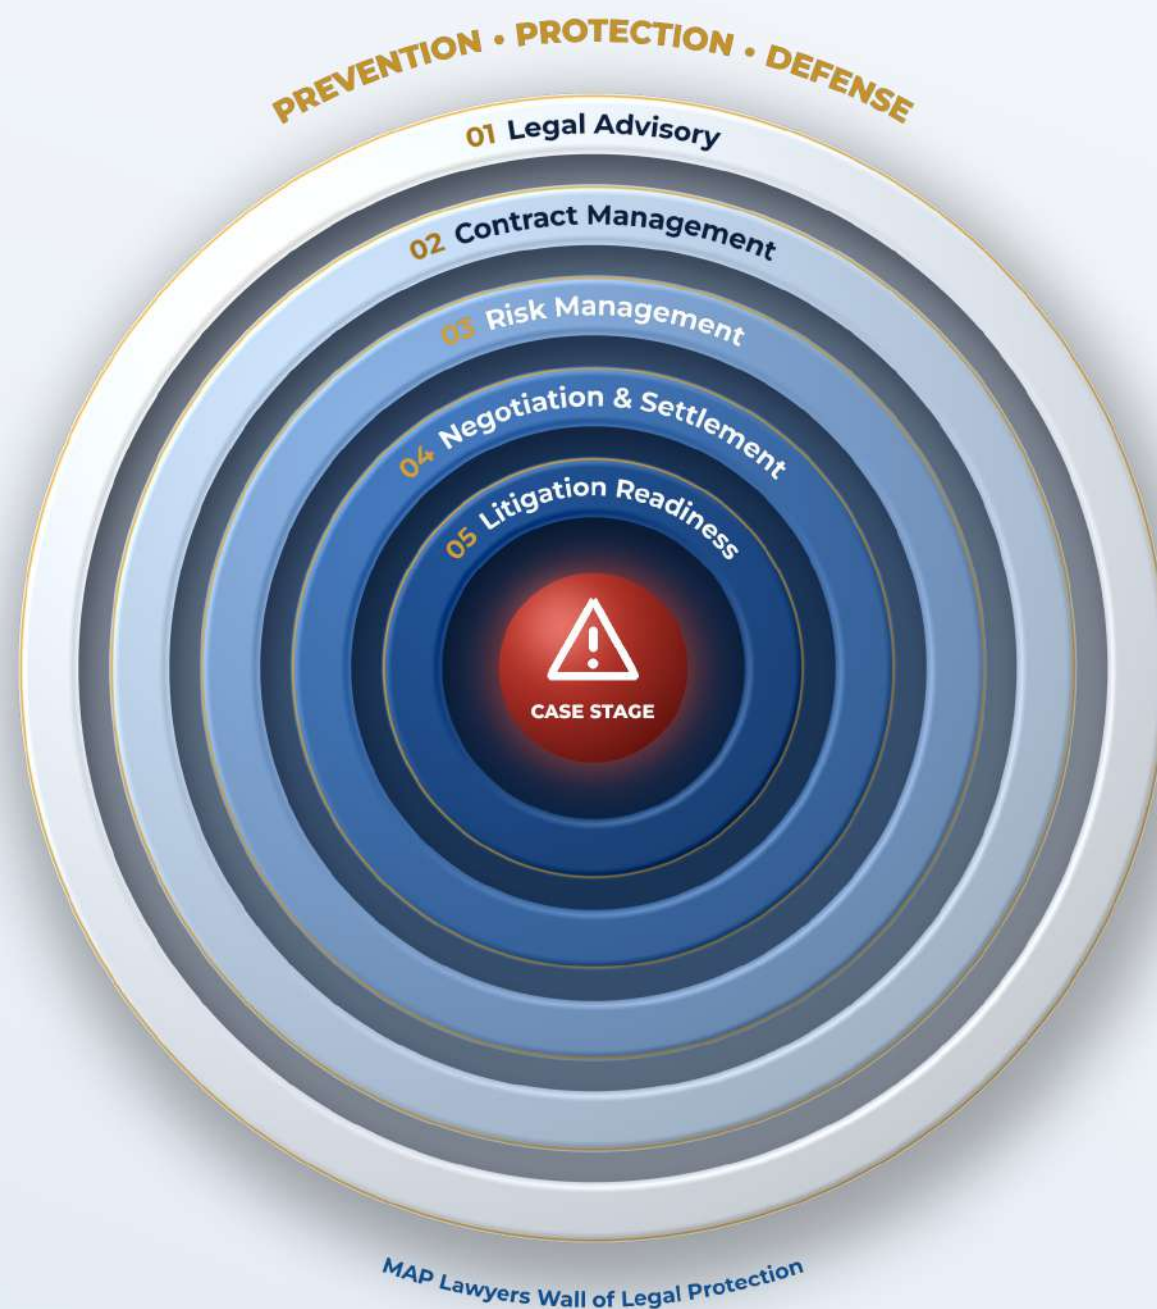

This is our pledge... to stand where the right stands, and to remain worthy of those who trust us.

The Protection System

We contain the risk... before it reaches you

We surround every legal risk with five successive walls of protection — starting with the opinion that precedes the decision and ending with a file fully prepared for confrontation — so the client reaches the case stage only with a fortified position.

Prevention

01 Legal Advisory

A legal opinion before every decision, closing gaps before they form.

02 Contract Management

Drafting, review and performance follow-up that protect rights and prevent disputes.

Protection

03 Risk Management

Identifying, assessing and treating legal risks before they escalate.

04 Negotiation & Amicable Settlement

Containing disputes and settling them amicably at the lowest cost and in the shortest time.

Defense

05 Litigation & Arbitration Readiness

Preparing evidence and procedural strategy before confrontation.

• The case stage

If a dispute arises, the client enters it with every defense in place.

Why Clients Trust Us

Four roads... that meet at our door

Courtroom and arbitral experience, academic and doctrinal depth, international reach, and continuous training and learning — four roads that meet at MAP Lawyers to produce legal counsel that stands up in court.

We do not ask for our clients' trust... we work every day to earn it.

MAP Lawyers In Numbers

Experience is measured by impact... not by years

Throughout our careers we have handled thousands of cases, contracts and legal opinions for clients across many sectors and markets. We measure our experience by the responsibilities we have carried, the complexity of the files we have managed, and the trust our clients have placed in us.

* Figures reflect the cumulative experience of the firm’s partners and team over their professional careers.

Prevention before the dispute • **Protection** during business • **Defense** when it is needed

Practice 01 of 09

Corporate & Investment

We lead the legal decision... before the dispute begins

A legal advisor's value is not measured by managing disputes alone... but by preventing them.

That is why we accompany companies, investors and entrepreneurs from incorporation and structuring, through expansion and deals, to cross-border investment — a lasting legal partner to executives and boards.

With you at every stage

We are not merely lawyers managing cases... we are partners in building decisions, protecting business and defending rights.

Practice **02** of 09

Legal Advisory & Risk Management

Legal thinking does not begin when a dispute arises...
but before the decision is made

We do not see advice as an answer to a legal question, but as a strategic process that enables companies, investors and boards to make informed decisions and manage risk before it turns into disputes, losses or liability.

Strategic legal advisory	◆	Legal risk assessment & management	◆
Opinions on investments & transactions	◆	Governance & compliance	◆
Internal investigations	◆	Review of corporate policies & bylaws	◆
Support to boards & executives	◆	Assessing legal positions & options	◆

**Legal advice is not an opinion written...
but a decision built on knowledge, experience and analysis.**

5,000+ legal opinions

Practice **03** of 09

Contracts & Transactions Local & International

Major contracts are not written... they are built

We see a contract as a tool to run the business, allocate risk and protect the investment; so we start by understanding the project's goals and the nature of the deal before drafting or negotiating, and we stay with the client through performance and obligation management.

Joint venture agreements (JV)	◆	Mergers & acquisitions (M&A)	◆
Shareholder & partner agreements	◆	International commercial & investment contracts	◆
Construction & major project contracts	◆	Supply, distribution & commercial agency	◆
Finance & security agreements	◆	NDAs, non-compete & MoUs	◆

**A contract's strength is not measured by its pages...
but by its power to protect interests and manage risk.**

6,000+ local & international contracts

Practice 04 of 09

Litigation and dispute management

A dispute is not managed only in the courtroom... it begins long before

Our work starts by analyzing the facts, contracts, correspondence and evidence, then assessing the legal position and building an integrated strategy — negotiation, settlement, litigation or arbitration — whichever best serves the client.

Commercial & investment disputes	◆	Corporate & shareholder disputes	◆
Construction & major project disputes	◆	Civil & administrative cases	◆
Labor disputes	◆	Banking & finance disputes	◆
Real estate disputes	◆	Domestic & cross-border disputes	◆

**We do not merely represent clients in court...
we manage the dispute with an integrated strategy.**

3,000+ court cases

Practice 05 of 09

Arbitration & Dispute Resolution

When preserving the business matters more than winning the dispute

We do not begin by asking how to win the case, but which path best serves the client — so we assess every dispute legally, commercially, financially and in time before choosing how to resolve it.

Domestic & international commercial arbitration	◆	Construction & major project arbitration	◆
Trade & investment arbitration	◆	Representation before tribunals & centers	◆
Drafting arbitration agreements & clauses	◆	Mediation, negotiation & settlements	◆
Enforcement & challenge of awards	◆	Multi-jurisdictional disputes	◆

**We do not choose arbitration as a substitute for the courts...
but because it may be the most efficient way to protect rights.**

97 arbitration cases

Practice 06 of 09

Construction, Projects & Infrastructure

Legal expertise in major projects starts... on day one

We cover the full project lifecycle, representing developers, owners, main contractors, subcontractors, consultants and suppliers, with a deep grasp of how contractual, engineering, financial and regulatory issues intertwine.

01

Negotiation & Contracting

FIDIC, engineering & commercial contracts

02

Execution

Variation orders & contractual risk

03

Claims

Claims management & extension of time (EOT)

04

Compensation

Financial claims, termination & project withdrawal

05

Resolution

Arbitration & litigation of construction disputes

**We do not just manage project disputes...
we protect the project throughout its life.**

Practice 07 of 09

Criminal Cases & Investigations

Real defense starts before pleading... from the first moment of investigation

We represent companies, business leaders, executives and individuals in economic, commercial and highly sensitive criminal matters, with full confidentiality and fair-trial guarantees, coordinating where needed with digital-forensics and financial experts.

Economic & financial crimes

Corporate crime & executive liability

Fraud & breach of trust

Money laundering

Cybercrime

Corruption & bribery

Business-related criminal matters

Representation before investigators & courts

**We protect liberty, rights, reputation and business...
with the highest competence and confidentiality.**

Practice **08** of 09

Specialized Practice & Enforcement

Specialized solutions... for needs beyond conventional practice

01

**Enforcement of local
& foreign judgments
and awards**

02

**Insolvency, restructuring,
debtors & creditors**

03

HR & employment law

04

Banking & finance

05

Debt collection & claims

06

**Insurance & compensation
claims**

07

Negotiable instruments

08

**Real estate development &
investment**

09

**Wills, endowments &
estates**

10

**Intellectual property &
trademarks**

11

**Specialized legal drafting
& translation**

Whatever the nature or complexity of the matter... **we have the specialized expertise to match it.**

Project management

Information technology

We do not measure a team by its size... but by its collaboration, shared vision and consistent standards.

Our Vision

Building today the law firm that will lead the practice tomorrow

The future of law will not replace human expertise with technology, but integrate the two: technology accelerates and sharpens analysis, while professional judgment and responsibility remain with the lawyer.

Our vision is not to be the
largest law firm...

**but among the most
influential, innovative and
trusted.**

Impact ♦ Innovation ♦ Trust

Five tracks... toward the future

01

An international legal platform

Bringing elite partners,
lawyers and experts
under one professional
standard, serving our
clients across borders.

02

Leading digital transformation

Harnessing legal
technology, AI and
knowledge
management to raise
the speed and precision
of our work.

03

Innovative legal solutions

Anticipating economic
and legislative change,
and addressing the
client's need before it
becomes a problem.

04

Investing in talent

A culture of continuous
learning and deep
specialization that builds
lawyers able to compete
globally.

05

Supporting the business environment

A partner in business
growth, governance, risk
management and the
protection of rights.
